

1000's of uses

It's easy...

instant Gluing, repairing, fastening, rebuilding
Instantbond can be used with our without Activator

1 Apply Adhesive

(Spagetti bead size to Item or one side of repair part)

What makes Instantbond so unique is its ability to cure in as little as 3 seconds, allowing you to use the fixed or repaired item immediately! No more waiting for hours, clamping, taping, or unnecessary hold downs. It's not just simply a glue, it's an "instant weld" on demand. Totally revolutionary! a real game changer. A whole new method of adhesion. Imagine the possibilities "Enjoy the freedom"

This will be the only Glue you will use!

2 Spray Activator

(on area to install or other side of part to repair)
